This index is in two sections. The Subject Section is an alphabetical subject index of **Articles**, and such features as **Nurses In Action**, **Professionally Speaking**, and **Continuing Education**. Geographic entries are by names of some Cities, and the names of States, Provinces, or Countries. The Name Section is alphabetical by surname of author. The following abbreviations are used: (bk rev)—book review; (ed)—editorial; (exc)—excerpt; (film rev)—film review; (NA)—Nurses in Action (Department); (OP)—Open Page (Department); (PS)—Professionally Speaking (Department); (PP)—Puzzle about Practice; (RC)—Research Circuit (Department).

Note that the subject headings are the same as those used in the **International Nursing Index (INI)** and are based on the *Medical Subject Headings* published by the National Library of Medicine. A "Nursing Thesaurus," which lists nursing headings commonly used with referrals to the headings used in INI and in the annual indexes of MCN, *The American Journal of Maternal Child Nursing*, *Nursing Research*, *Nursing Outlook*, and *American Journal of Nursing*, is published each year as part 2 of the first issue of INI and is bound in the fourth and cumulated hard cover issue. Copies of this Thesaurus are available from the Editor, **International Nursing Index**, 10 Columbus Circle, New York, N. Y. 10019, price \$2.00.
